Dear Resident/Business Owner:

This is an important notice informing you **National Grid** will be performing replacement work of our gas mains and gas services in your neighborhood at **29 to 72 Gray ST.; 78 to 96 Jason ST., Arlington, MA.** Our work has a tentative start time during the week of **September 12, 2014** with an approximate end date of **October 3, 2014.** Additionally, general posting in the area will provide the specific dates following our permitting process. Work will generally take place from **7:00 a.m. – 4:00 p.m., Monday to Friday.** **National Grid customers will have a scheduled time period for the transfer of services to the new main, where there will be a short interruption of gas service. For this process to be completed, our technicians will need access to the existing gas service and meter.** We apologize in advance for any inconvenience, but this project is part of our commitment to provide continuous improvements and keep the natural gas delivery system safe and reliable.

- National Grid and/or a qualified contractor will perform the work. A police detail is provided, if necessary. The road will be open to the public and parking may be limited. A construction foreman with appropriate identification will be on site to address your parking needs throughout the duration of the construction.
- Meters may need to be relocated to the outside of the home or business.
- There may be a lag between temporary and permanent restoration of the street and sidewalk, depending on weather and ground conditions.

If you have any questions about the project, please call **Susan Scarcella**, Manager, Community & Customer Management, at **(781) 907-1611**. For general inquiries, National Grid **Customer Service** can be reached 24/7 at **1-800-233-5325**.

Not a National Grid natural gas customer?

If you do not have a gas service to your home or are not currently using natural gas for heating, this is the easiest time to make the switch to clean, reliable natural gas. Please be aware that if your street is repaved it will be some years before National Grid has permission to reopen the street and/or sidewalk.

For more details about our many conversion incentives please call

1-877-696-4743 or visit our website <https://www1.nationalgridus.com/ConvertToNaturalGas>

Sincerely,

National Grid
